* Estimate is based on a comparison of the sixth congressional district map to a ZIP code map of Baltimore and Montgomery counties.

** Based on road distribution, it is estimated that about one-quarter of Harford County's new and prevalent HIV and AIDS cases are found in areas that coincide with Maryland's sixth congressional district.

† Approximately half of the ZIP code's cases are not in the sixth congressional district.

†† Portions of the ZIP code are located in an adjacent county.

††† Approximately half of the ZIP code's cases are not in the sixth congressional district and portions of the ZIP code are located in an adjacent county.
