

CHILD CARE SERVICES

HRSA Description (2-1-2016)

Child Care Services supports intermittent child care services for the children living in the household of HIV-infected clients for the purpose of enabling clients to attend medical visits, related appointments, and/or RWHAP-related meetings, groups, or training sessions.

This does not include child care while the client is working.

Allowable use of funds includes:

- A licensed or registered child care provider to deliver intermittent care
- Informal child care provided by a neighbor, family member, or other person (with the understanding that existing federal restrictions prohibit giving cash to clients or primary caregivers to pay for these services)

Key Service Components:

Child care services can be provided either in a traditional day care facility, onsite at the service provider agency, or by an informal child care provider. Direct cash payments to clients are not permitted.

Qualifications

Competencies, Knowledge and Skills	Evaluation/Documentation
Facilities that provide children care services must deliver services in accordance with State of Maryland child care licensing requirements.	A copy of the current license must be available upon request.
